## Chapter: 1 Introduction

LafargeHolcim is a manufacturer of building materials (primarily cement, aggregates and concrete), with a presence in around 80 countries and 81,000 employees being the largest in the world. It was formed by the merger on 10 July 2015 of cement companies Lafarge and Holcim, which had combined net sales of CHF 26 billion in 2017. On 7 April 2014, Lafarge and Holcim announced a merger project to create LafargeHolcim. With a combined market value exceeding \$50 billion, the merger was the second largest announced worldwide in 2014. [1] It was early recognised that a merger of this scale would raise regulatory concerns. On 10 July 2015, Lafarge and Holcim completed the merger and created LafargeHolcim. [2] On 15 July 2015, the new LafargeHolcim Group was officially launched. [3]

## Chapter 2: Objective

### 2.1 Board Objective

Analyze the overall information system of LafargeHolcim.

### 2.2 Specific Objective

This project is for studying the information system of LafargeHolcim. We also want to find out

- How a large company like LafargeHolcim maintains their overall information?
- How they maintained their information when they were separated?
- How they merging their separated information?
- What kind of problem they are facing to do this?
- How they communicate with their customers?

## Chapter 3: Scope

We will study the information system run by LafargeHolcim Company in short. We will just study which software the use and how they are merging their previous information. We won't go further details about it.

## Chapter 4: Methodology

To successfully meet the project, we want to interview one or more employees working in LafargeHolcim and well known about their information system. We will ask them the previous questions to collect our requirements to study their information system. With the help of the answers provided by employees we will complete our analysis on its information system.

## Chapter 5: Timeline Chart

**Start Date:** 18 March, 2018

**End Date:** 18 March, 2018

**Our tasks can be divided into 4 sections. They are-**

1. Set goals and objectives
2. Interview
3. Data analysis
4. Finalizing report

Figure 1: Timeline chart

## Chapter 6: Team Members

Name	Roll
Mahir Mahbub	0807
Atiq Ahammed	0817
Khayrul Islam	0822
Sefat E Mahadi	0839

**Mahir Mahbub**

**Atiq Ahammed**

**Khayrul Islam**

**Sefat E Mahadi**

## Chapter 7: Budget

### Cost Breakdown

	<i>Expense in (Taka)</i>
<i>Communication</i>	350
<i>Uber</i>	300
<i>Phone Call</i>	50
<i>Report Printing</i>	300
<i>Total</i>	650

**Mode of Payment:** Cash

## Chapter 8: Conclusion

We hope that, we will be able to communicate with our desirable employees of LafargeHolcim. We also hope that, we will collect all the answer of our questions required for the analysis of information system and successfully complete our project.
